Ramco Systems announced the launch of its Software as a Service (SaaS) Enterprise Resource Planning (ERP) offering for the Aviation, Aerospace and Defense industry. Since its launch, Ramco has signed over 300 new OnDemand ERP Clients.

Ramco's Aviation Manufacturing Applications are the perfect fit for those organizations seeking all the power of the large scale on-premise ERP applications, now in Software as a Service model. There is no software or hardware to own, clients pay on a subscription basis. The manufacturing suite provides unification of Engineering, Supply Chain, Manufacturing, Sales, Service Management, Plant Maintenance, Human Resources and Financials.

“Organizations have come to Ramco for many years asking for outsourced models, today, Ramco is proud to be able to offer manufacturers in the Aviation, Aerospace and Defense industry a choice in enterprise solutions. Our twenty plus years in the industry has allowed us to continue our tradition of creating industry best practice solutions and since our launch of RODE, we have signed over 300 new SaaS clients. This is a great fit for any company that is seeking to streamline their operation and realize bottom line profits from the SaaS OnDemand model.” says Jim Fitzgerald, President of Ramco Systems Corporation.

Part of the USD 875 million Ramco Group, Ramco Systems is a leading software company focused on consulting, product and managed services business. Headquartered in Chennai,

Ramco Systems was started as an R&D division of Ramco Industries Limited in 1992, and later established as an independent company in 1999. The company focuses on providing innovative business solutions that can be delivered quickly and cost-effectively in complex environments. Globally, Ramco has over 100,000 users from 800+ customer organizations since inception. The company currently has 14 offices spread across India, USA, Canada, Europe, Middle East, South Africa and APAC and employs over 1,500 employees.

Ramco's key differentiator is its innovative approach to develop products through its revolutionary enterprise application assembly and delivery platform - Ramco VirtualWorks™. Ramco Systems has seven major product suites – Ramco Enterprise Suite, Ramco Enterprise Asset Management Suite, Ramco Aviation, Ramco OnDemand ERP (ERP on SaaS), Ramco Enterprise Information Management Suite, Ramco Advanced Process Control, and Ramco Mine Management. Strong domain knowledge coupled with proven implementation expertise enables Ramco to provide specialized solutions in verticals such as Manufacturing, Real Estate & Construction, Energy & Utilities, Logistics, Service, BFSI, Aviation, Government and Defense.

Ramco Systems has been assessed for ISO 9001:2008 and ISO 27001:2005 information security standards. Ramco's BPO unit is SAS 70 Type II certified.
